Summary

- Passionate Back-End Developer specializing in PHP and Laravel, with hands-on experience building scalable and secure web applications. Skilled in database design, API development, and optimizing performance to deliver efficient solutions. Strong problem solver with a focus on clean, maintainable code and continuous learning. Experienced in collaborating with teams to achieve project goals and improve user experience

Internship Experience

iSchool – Coding Instructor (DEMI Initiative)

July 2025 – September 2025

- **Conducted live interactive programming sessions for school students (ages 6–18) as part of the Digital Egypt Cubs Initiative (DEMI).**
- **Taught Python, Scratch, and introductory backend development concepts in a clear and engaging manner.**
- **Guided students through assignments, projects, and code reviews, ensuring strong understanding and practical application.**
- **Adapted teaching methods to different learning levels, improving student engagement and completion rates.**

Information Technology Institute (ITI) – Python Programming Intern

July 2025

- Completed comprehensive training in Python programming.
- Enhanced coding skills through practical exercises and real-world projects.

Information Technology Institute (ITI) – UI/UX Design Intern

January 2025 – February 2025

- Learned UI/UX design principles and applied them to website and application projects.
- Developed skills in creating user-friendly and visually appealing interfaces.

Electricity Company – IT & Network Intern

July 2024 – August 2024 • 1 mos

- Gained hands-on experience in network management and Windows Server administration.
- Assisted with troubleshooting and maintaining IT infrastructure.

Academic Projects

Real-Time Chat Application

Technologies: PHP • JavaScript • WebSockets

- Developed a real-time chat system with live message updates and session-based user handling. • Implemented WebSocket connections to ensure instant message delivery without page reloads.
- Focused on performance, real-time synchronization, and clean UI responsiveness.

AI-Based Face and Emotion Recognition System

Technologies: Python • OpenCV • Deep Learning

- Created a facial detection and emotion recognition tool using machine learning models.
- Enabled real-time webcam analysis to detect emotions like happiness, sadness, anger, etc.

- Applied image processing techniques and trained models on emotion-labeled datasets.

Note Management System

Technologies PHP • MySQL • HTML/CSS • Admin Panel

- Developed a web-based note-taking system allowing users to create, edit, and delete notes efficiently.
- Built an admin dashboard to manage notes and view system statistics.
- Implemented CRUD operations, session management, and secure data handling using PHP and MySQL.
- Focused on clean UI, usability, and responsive design.

Skills

- PHP │Laravel │MySQL │ RESTful API Development│ Object-Oriented Programming (OOP) │ Git & GitHub │ Debugging & Problem Solving MVC Architecture │ VS Code│ Linux & Windows OS │ Bootstrap

Soft Skills

- **Effective Communication:** Able to clearly explain complex technical concepts to team members, clients, and stakeholders, facilitating smooth collaboration across departments.
- **Problem-Solving & Critical Thinking:** Skilled at diagnosing technical issues, analyzing problems deeply, and delivering efficient, innovative solutions.
- **Team Leadership & Collaboration:** Experienced in leading teams, motivating peers, and fostering a positive work environment to achieve common goals.
- **Time Management & Prioritization**: Expert in organizing tasks, managing deadlines, and balancing multiple projects without compromising quality.
- **Adaptability & Continuous Learning:** Quick to embrace new technologies and methodologies, with a commitment to ongoing personal and professional development.
- **Attention to Detail:** Maintains high standards in coding quality, testing, and documentation to minimize errors and ensure maintainability.
- **Creativity & Innovation:** Applies creative thinking to develop unique approaches to technical challenges and project workflows.
- Project Management: Proficient planning, tracking progress, and coordinating resources to deliver projects on time and within scope.
- **Conflict Resolution & Negotiation**: Capable of managing and resolving team conflicts, ensuring smooth project execution and positive relationships.
- **Responsibility & Accountability:** Reliable and proactive in taking ownership of tasks, meeting commitments, and driving projects forward.

Certifications

- Electricity Company – IT & Network Internship Certificate August,2024
- ITI – Frontend Development with Angular Certificate February,2025
- ITI – UI/UX Design Internship Certificate February,2025

Education

B.Sc. in Computer Science and Mathematics Aug 2022 – May 2026 • 3 yrs 9 mos

Undergrad, Faculty of Science, Damanhur University – Egypt

Computer Science and Mathematics Department

GPA: 3.16 / 4.0

Damanhur, Egypt
